**HERITAGE TREE / TREE PROTECTION ORDINANCE**

Members reviewed the Whitmarsh Township Tree Protection Standards. Ms. Breen commented that a distinction should be made for heritage/exceptional trees in Springfield Township and further noted that the Whitmarsh Shade Tree Commission is more involved in approving development plans and private properties.

Members Mr. Bell and Ms. Ponce voiced their support for the Whitmarsh Twp. model and advocated for getting more involved in formulating landscaping/tree protection standards. Mr. Ford then shared that the Springfield Township Planning Commission is beginning the process of reviewing and revising their subdivision and land development ordinances (SALDO). It was recommended that the Commissions partner on the revisions, with Shade Tree taking responsibility for the landscaping/tree protection regulations.

A discussion was then had regarding the degree to which the Commission wanted to become involved in tree protection/replacement. The general consensus was that the members wished for more transparency in landscaping standards and to implement stronger protection standards that are more aligned with those outlined by the Whitmarsh Township model.

There being no other business the meeting was adjourned.
