ON THE COVER

Mermaid Park, Wyndmoor

Located at the intersection of Elm Street and Mermaid Lane, Mermaid Park is a 7-acre passive recreation facility located in the Wyndmoor section of the Township. The park was donated to the Township in 1974 from the United States Department of the Interior.

A massive park rehabilitation project was completed in 1999 which included dredging the pond, stabilizing the stream channels, installing new park benches, shade trees and refuse containers and the replacement of an eight-foot chain-link fence with a more park-like post-and-rail fence. In October 2022, the Township completed another rehabilitation project inclusive of a pond dredging, streambank stabilization, construction of a paved walking path and the planting of a meadow verge.

Park and Recreation Projects

RECREATION CENTER PROJECT

The Springfield Township Recreation Center Advisory Committee was established in January 2023 by the Board of Commissioners to guide the planning process for the future of the recreation center located at 1200 Willow Grove Avenue in Wyndmoor. Specifically, this committee has explored what renovations would be needed to the existing facilities in order to accommodate the current and anticipated recreational needs of the community OR if the construction of a new facility is necessary to meet the recreational needs of the community. Currently, the Committee will guide the process for designing a new recreational facility at 1200 Willow Grove Avenue. This is an ongoing project with design and layout details being reviewed and approved.

FORMER TANK CAR SITE REDEVELOPMENT

In 2015, Springfield Township acquired a 7.8 acre property located at 1725 Walnut Avenue in Oreland to redevelop the site into a public park. The Township is in the midst of finalizing the voluntary Act 2 land recycling program through the Pennsylvania Department of Environmental Protection and is currently taking steps to proceed in transforming this former industrial site. In late 2022, Springfield Township was awarded \$25,000 in grants funds from the Pennsylvania Department of Conservation and Natural Resources (DCNR) for the creation of a Master Site Park Plan for the 1725 Walnut Avenue property. The creation of a master site park plan will help the community develop a comprehensive vision for the type of park that the Township will construct at 1725 Walnut Avenue in context of its location, natural resources, and visions of the community. The planning process will continue to take place over the course of many months with opportunities for residents to participate.

For updates, take a look at the Township Projects page on the Township website.
